Note
<p>Calculation of the time difference in individual events:</p> <p>The start time difference for each athlete is calculated by converting the number of points behind into time. Each point behind is equivalent to four seconds; an athlete 15 points behind will start with a time difference of one minute.</p> <p>Wave:</p> <p>To prevent too large start time differences, the Jury can decide upon the use of the "wave start". At the end of the Cross-Country race, the actual time difference after Ski Jumping will be adjusted accordingly.</p>
